GATE AUTOMATION
ACCESS CONTROL
SMART HOME

Warehouse Operative

Job Description

Join A Growing Security and Automation Distribution Company

Advanced Security Distribution LTD is one of Ireland's leading distributors of Gate Automation Equipment, Access Control Systems, CCTV, Intercoms, Barriers and Security Products. We supply installers, contractors and security professionals throughout Ireland and are looking for a motivated Warehouse Operative to join our growing team in Dublin.

This is an excellent opportunity for someone with warehouse experience who wants to work in a stable, growing industry with opportunities for training and career progression.

Role Overview

We are seeking a reliable and motivated Warehouse Operative to join our Dublin team. The successful candidate will be responsible for the efficient handling, storage, picking, packing and dispatch of gate automation and access control products. This role is vital in ensuring accurate order fulfilment and maintaining excellent service levels for customers.

Key Responsibilities

- Receiving and checking deliveries from suppliers.
- Picking and packing orders accurately and efficiently.
- Preparing goods for dispatch and out courier collection.
- Maintaining stock accuracy and warehouse organisation.
- Participating in stock counts and inventory checks.
- Processing goods inwards and updating stock records.
- Assisting trade customers collecting orders.
- Maintaining a clean, safe and organised warehouse environment.
- Supporting the sales and technical teams with stock availability queries.

What We Are Looking For

Essential

- Previous warehouse or logistics experience.
- Strong attention to detail and accuracy.
- Good organisational skills.
- Ability to work independently and as part of a team.
- Good communication skills.
- Basic computer skills.
- Positive attitude and strong work ethic.
